

BOYDUR® M12-A15

FLEXIBLE, FAST, AND DURABLE REPAIR SOLUTION

What is Boydur® M12-A15?

Boydur® M12-A15 is a **two-component, flexible** repair and filling material based on **Methyl Methacrylate (MMA)**, designed for **both indoor and outdoor use**. It provides a **fast-curing and long-lasting** solution for various industrial and commercial applications.

Why Choose Boydur® M12-A15?

- **Cures in Just 1 Hour** – Get back to operation quickly without delays.
- **Flexible and Durable** – Ideal for high-vibration surfaces and areas exposed to heavy loads.
- **Perfect for Joint and Crack Repairs** – Ensures seamless restoration of damaged surfaces.
- **UV & Weather Resistant** – Maintains integrity even under harsh conditions.
- **Easy to Apply** – No special equipment needed, suitable for professionals and contractors.
- **Solvent-Free & Safe** – Environmentally friendly and safe for industrial use.

Application Areas

Boydur® M12-A15 can be **easily applied on different types of surfaces**, including **concrete, hard surface coatings, and mosaic**. It is particularly effective for high-vibration environments.
